

M'CLELLAN IS
AGAIN CHOSEN.Present Mayor of New York
Suits Tammany.Ticket Fixed up in Advance
Ratified With Ardent.Municipal Ownership is De-
clared Good Democracy.

(BY THE ASSOCIATED PRESS-P.M.)

NEW YORK, Oct. 5.—Mayor George A. McCall was tonight renominated for Mayor of New York for the fourth year, beginning January 1 next, by the Democratic city convention of the Tammany Hall organization. Mayor McCall is now rounding out his first term of two years. The Legislature having recently amended the city charter so as to provide for a four-year term of office for officials of Greater New York.

The convention was held in Carnegie Hall, amid much enthusiasm. The fact that the entire ticket had been decided upon beforehand was held to diminish the ardor of the delegates of the five boroughs of the greater city. They entered upon the work of ratifying the slate with much earnestness.

Mayor McCall was the only member of the present administration renominated, the ticket named by the convention being as follows:

Mayor, George A. McCall of Manhattan.

Comptroller, Herman A. Metz of Brooklyn.

President of the Board of Aldermen, Patrick F. McGowan of Manhattan.

Metz is named to succeed Comptroller E. M. Grout, and McGowan to succeed President Charles V. Farnes.

Farnes presided at tonight's convention.

A resolution was adopted highly commending President Roosevelt for his services in bringing about peace between Russia and Japan.

ORATION FOR MURPHY.

Leader Charles F. Murphy of Tammany Hall received an uproarious welcome when he walked into the convention hall, the band playing "Tammany" and the delegates cheering wildly. Senator Patrick H. Murray, the Tammany leader, also was accorded an ovation. Mayor McCall was notified of his nomination and appeared in the hall shortly after 11 o'clock. Again there was an enthusiastic demonstration.

Mayor McCall, in accepting the nomination, declared it had come to him unasked and unsought. He said he was pledged to the people to peace; pledged only to the people to do his duty to the best of his ability.

Mayor McCall spoke briefly, but took occasion to touch upon the question of municipal ownership of public utilities. "The Democratic," he said, "believes that community is best governed which is least governed and that individual effort and private enterprise can accomplish the same result as government, and the government has no right to interfere. Where, however, public utilities conducted by private enterprise fail in giving the people an adequate service, then I believe that it is the duty of government to take control of them."

The platform adopted touches on municipal ownership and declares it is a principle of the Democratic party. It is asserted, "is no longer a campaign catchword, but a principle applied and in operation in the greatest American cities. An intelligent, conservative and responsible Democratic administration will not shrink from its continued application and the ultimate triumph upon safe lines of the principle of municipal control of public utilities."

STOKES TO BE SHADY BROOK.

LENOX, Mass., Oct. 5.—Charles Brooks, formerly the country property of Mr. and Mrs. Anson Phelps Stokes of New York, will within a week pass to Samuel P. Shetter of Savannah, Ga., who is completing negotiations for the purchase of the house and a considerable tract of land on the estate which surrounds it. This property cost Mr. Stokes \$1,500,000. The house, which was built in 1860, is one of the most in size to George Vanderbilt's Billmore, as an American private residence. It is situated on a hillside and is surrounded by a park of about 250 acres. Mr. Shetter will pay about \$250,000 for the house and about two hundred acres, including a valuable lake frontage.

CASTRO RETURNS TO CARACAS.

PARIS, Oct. 5.—The officials here have been advised that President Castro returned from Los Teques to Caracas, Venezuela, on October 4. He indicated his intentions relative to the French request for the withdrawal of the language of the French cable, but the French Charge d'Affaires, in refusing to communicate with the French government through him. Both the French and the French Cable Company say that the reports that the company will deal directly with President Castro are incorrect, as the company is entrusting its interests to the government.

"SALT OF THE EARTH"
IN DIRTY BUSINESS.

President J. Edward Simmons of a
New York Bank Roasts "Graft"
and "Grafters"—Secretary Bonaparte Believes a "Kicker" Has Value.

(BY THE ASSOCIATED PRESS-A.M.)

ANAPOLIS (Md.), Oct. 5.—The annual convention of the Maryland Bankers' Association began here today, and was attended by a large number of bankers from the counties and from points outside the State.

J. Edward Simmons, president of the Fourth National Bank of New York, delivered an address on "Honesty in the Salt of the Earth and Who Controls It." He deplored the conditions which have led even to the terms "graft" and "grafter," and said he feared the very use of the words was an indication of men's tolerance of a thief and his accomplices.

He called upon the members of the association to give their assistance in remedying a condition which makes it possible "for men to pose as the salt of the earth and who control it, without reserve, those who steal \$50 or forge a check for \$100, or accept a bribe, who themselves make millions by lying, by misrepresentation, by fraud and by bribery," without receiving punishment, or even criticism, while the man who steals the salary sin is sent to jail. He denounced the men of stainless private life, who, in the interest of corporations, of the trusts, of the gas company, of the railroad company, of the insurance company, has recourse to every villainy damnable in the catalogue; who does the deed of a highwayman with the air of a saint; who is as fully understood as their advantages. He believed that their dark side had not been investigated and set out as loudly and forcibly as their bright side.

He referred to the growth of the socialist movement, as shown by the last Presidential elections, as due largely to the fact that the masses see large fortunes accumulated by dishonest means and when so accumulated combined in some other individual enterprise. He believed, however, that the situation was not without hope, as the very fact that the country had awakened to the conditions and that fearless and able men are organizing and leading a campaign against dishonesty are grounds for hope that a far-reaching process has been set on foot. He discussed the tariff, scoring severely those who debate the legislator to make laws compelling competitors in business or to exact tribute from their fellow-citizens under the name of duty.

"I recognize readily," said Simmons, "the vast blessings which union or consolidation for business purposes, if properly guarded and honestly conducted, may bring upon the nation. We must not forget, however, that all trusts are monopolies in tendency, and that almost every industrial consolidation that has been had for the object of the consolidation of the power of the few upon the many, when monopoly prevails, under each circumstance it may be unjustifiable to

A SLEEP OVER
WALL STREET.Morris Spencer Takes a Nap on
Narrow Ledge Twelve Stories
Above the Street.

(BY DIRECT WIRE TO THE TIMES.)

NEW YORK, Oct. 5.—(Exclusive Dispatch.) Morris Spencer, a window cleaner in Wall street, took a three-hour nap today, on a narrow ledge twelve stories above Wall street. A man in an upper story of the building opposite, seeing the window cleaner there, phoned to an officer, who went up, leaned out of the window, watched intently by a large crowd below, and grasped the man's clothing tightly and shook him. The man was awakened easily, and came in, irritated at having been disturbed.

right to interfere. Where, however, public utilities conducted by private enterprise fail in giving the people an adequate service, then I believe that it is the duty of government to take control of them."

INSURANCE.

(Continued from First Page.)

in this country and abroad. Like Perkins of the New York Life Insurance Company, he appeared to be the one factor that built up the foreign business of this company. His salary was \$30,000 yearly.

McCurdy had a typewritten statement of his career, which he asked permission to read. This detailed his various compositions, contracts and commissions. There were a number of reductions in the commissions, which he said were made at his own request, owing to the unforeseen success of the foreign business. This foreign business was inaugurated because of the success attained by the New York Life Insurance Company and the Equitable Life Assurance Society. McCurdy started this foreign business in 1885 and assumed the office of general manager in 1903 at a salary of \$30,000.

The most startling part of McCurdy's testimony was made just before recess, when he submitted a statement of his profits or the revenue from his contracts on foreign business. From 1885 to 1902, while he was a member of the firm of Raymond & Co., a metropolitan agent of the Mutual Life Insurance Company, his profits were \$209,123. Under his contract with the firm, he paid one-half of \$104,561 to Raymond and from 1893, when he left the firm, down to August 31, 1905, his commissions were \$1,059,267, making a total personal revenue from the foreign business from 1885 to 1905 of \$1,163,829.

During the period of his connection with the firm of Raymond & Co., McCurdy, according to his own testimony, was receiving his share of the profits on the business of the Mutual Life Insurance Company written by his firm as metropolitan agents. This sum McCurdy was unable to give any estimate upon, and later in the day, when Raymond was called, it was brought out that these profits to McCurdy amounted to \$41,853. He said, after his share of the expense of the firm's profits had been deducted, this makes a total of \$1,059,267 that McCurdy received in commissions.

In 1903, when McCurdy retired from the firm of Raymond & Co., he was succeeded by Louis A. Thebaud, a son-in-law of President Richard A. McCurdy of the Mutual Life Insurance Company. He was practically under the same contract as Robert McCurdy, and from 1893 down to 1904 he received in commissions on first premiums and renewals the sum of \$920,173. All these amounts were in addition to salaries paid to McCurdy and Thebaud.

Charles H. Raymond, who was called to the stand to supply the figures of profits that McCurdy was unable to produce, occupied the stand for the remainder of the day. He was examined as to the scope and territory of his business and the amount of commissions he received from the Mutual Life Insurance Company, as well as to the amount his firm paid sub-agents. Raymond's examination was not finished when the committee adjourned for the day.

"LEGISLATIVE WORK."

Thumel testified that Vice-President Robert A. Grannis, of the Mutual, was the executive officer who had supervision over the "legislative work." He said he believed that in 1904, the Mutual Life paid out for this probably \$150,000. Answering Hughes, he said that he had traveled about the country and kept track of legislative measures affecting insurance.

FRIDAY, OCTOBER 6, 1905.

PAUPER SICK CALLED INSANE.

The Way Nevada Counties Rid Selves of Burden?

Man Dying of Fever Received at State Hospital.

California's Mineral Wealth. Wireless is Tested.

RENO (Nov. 5.)—[Exclusive Dispatch.] Dr. Gibson, in charge of the Nevada Hospital for the Insane, makes the startling charge that pauper counties, in order to rid themselves of the unfortunate pauper sick, are declaring the unfortunate insane and committing them to the State asylum. How many of the 190 or more patients now being treated for insanity at the hospital are, in reality, suffering from fever, instead of mental affliction, is uncertain. Many of these patients, naturally chafing under the thought of being committed to the asylum, are placed under steeper conditions than other patients.

The matter was brought out yesterday by the death of George Stepp, a Virginia City, Steppich was committed in a dying condition from

STATE'S MINERAL WEALTH. REVENUE FIGURES FOR LAST YEAR. BY THE ASSOCIATED PRESS.—A.M. SAN FRANCISCO, Oct. 5.—The State geologist reports that the mineral wealth of California in 1904 was valued at \$1,144,600 more than those of the preceding year. The total value for 1904 was \$1,144,600 and for 1905 it was \$1,144,600.

The value of the metallic substances mined in this State in 1904 was \$1,144,600. The value of the non-metallic substances mined was \$1,144,600.

LET THOSE CLOUDS ALONE.

New Westminster Folks Order British Gunboats to Give the Sun a Chance.

BY DIRECT WIRE TO THE TIMES. SEATTLE (Wash.) Oct. 5.—[Exclusive Dispatch.] The theory that a series of explosions will cause a fall of rain if the clouds are susceptible was demonstrated at New Westminster, when a passing cloud was greeted with a series of volleys from the British gunboat Shearwater, in that port, and but a short time elapsed before rain descended in torrents. Excursionists were just alighting from the Bellingham train to attend the provincial fair.

Meteorologists ascribe the late rains to the continual discharge of cannon on the gunboat in port, and the discontinuance of the practice has been ordered, in the hope of inducing the sun to shine.

Navy Department yesterday. The cruiser Boston had left Mare Island for Panama, to be gone eight months. On board were twelve bluejackets who had three months to serve. The cruiser was just heading for the Golden Gate when the wireless telegraph sounder on board began a message to the captain, ordering him to transfer the short-term men to a navy tug about to be dispatched from Mare Island with a dozen long-term men to take their places. The Boston immediately came to anchor off Angel Island.

The army transport Thomas, which recently was repaired and placed in first-class condition, sailed today for Honolulu, Guam and Manila. She carried the officers and men of the Thirtieth Infantry, Company F of the Signal Corps, a number of cavalrymen and thirty members of the Marine Corps. Among the cabin passengers were Col. A. C. MacArthur, commanding the Thirtieth Infantry, Col. P. K. Ward of the Second Cavalry, and Maj. J. C. Greenham, inspector general.

A large cargo of general army supplies was also taken on the Thomas.

INDORSE PARCELS POST. GRANTERS GO ON RECORD. BY THE ASSOCIATED PRESS.—A.M. NAPA, Oct. 5.—State Grange of Patrons of Husbandry resumed its session this morning. State Master H. C. Raah of Martinez, presiding. A proposed amendment to the constitution and bylaws was presented, providing that the annual meeting of the State Grange be held on the second Tuesday in December, instead of on the first Tuesday in October, as at present. The amendment was finally voted down by a close vote. A resolution was also strongly endorsing the system of parcels post for the United States Post-Office Department.

This afternoon, a resolution was adopted providing that hereafter all reports of officers of the State Grange be printed in advance of the session, so that they can be placed in the hands of the delegates.

A report was made that the Rochdale cooperative stores were succeeding in the California market, and that the insurance was succeeding in Oregon and should be advanced in this State.

ALLEGED BREACH OF CONTRACT. RAISE CORPORATION SUE ON. BY THE ASSOCIATED PRESS.—A.M. SAN FRANCISCO, Oct. 5.—The Pacific Packing Company, Guggenheim & Co. and Castle Brothers filed suit today in the Superior Court against Abraham Rosenberg, Max L. Rosenberg and Adolf Rosenberg, doing business under the firm name of Rosenberg Bros. & Co., to recover damages amounting to \$250,000 for alleged breach of contract and for the Phoenix Cold Storage Company, which was a partner in the alleged agreement to form a corporation for the purpose of absorbing the business conducted by the Phoenix Cold Storage and Packing Company, Guggenheim & Co., Rosenberg Bros. & Co., and Castle Bros., and conducting the business for the benefit of a corporation to be formed and to form a corporation with a capital stock of \$1,000,000, of which \$250,000 was to be furnished by each of the parties thereto and the corporation to be formed.

The properties embraced book accounts, buildings, machinery and property other than stock and material on hand, these including a plant owned by the Phoenix Cold Storage and Packing Company, which was a partner in the alleged agreement to form a corporation for the purpose of absorbing the business conducted by the Phoenix Cold Storage and Packing Company, Guggenheim & Co., Rosenberg Bros. & Co., and Castle Bros., and conducting the business for the benefit of a corporation to be formed and to form a corporation with a capital stock of \$1,000,000, of which \$250,000 was to be furnished by each of the parties thereto and the corporation to be formed.

REACH HOME WITH TREATY.

Peace Pact Signed at Portsmouth Now in Tokio.

Public Awaits Explanation of the Government.

Business Men Urged to Secure Victories, Also.

[BY THE ASSOCIATED PRESS.—A.M.] TOKIO, Oct. 5.—[By Pacific Cable.] M. Yamana, director of Political Affairs of the Foreign Office, and H. W. Denison, the advisor of the Foreign Office, arrived at Yokohama yesterday on board the steamer Dakota, from Seattle, September 20, bringing the peace treaty signed at Portsmouth September 5. They left immediately for Tokio. They arrived here last evening, but found few people to meet them at the railroad station owing to the strict examination made of all persons by the military and police who guarded the station.

In adopting the peace treaty, yesterday, the Privy Council has clearly impressed upon the anti-peace agitators the impossibility of refusing to ratify it. The energies of the latter will now likely be concentrated on an attack upon the Cabinet.

Public demonstrations expressing the national indignation against the peace treaty will, it is believed, cease, but this outward suppression of feeling will only create a strong undercurrent of dissatisfaction, which, if allowed to grow, will swell the popular rage. Unwise resistance and any attempt to suppress popular opinion may, it is feared, give rise to acts of violence.

Well informed people, while appreciating the wisdom of putting a stop to the war, are indignant at the half-measure policy of the government, which, if allowed to grow, will swell the popular rage. Unwise resistance and any attempt to suppress popular opinion may, it is feared, give rise to acts of violence.

The public is keenly intent, awaiting an explanation from the government, but the promise of a special session of the Diet immediately after the conclusion of the peace not having been fulfilled, it is growing impatient.

NATIONAL DEBT. Former Foreign Minister Okuma, leader of the Progressive Party, before the Associated Chambers of Commerce today, referring to the sudden expansion of Japan's finance, said that when the withdrawal of troops is completed she will find herself confronted with a debt of \$1,500,000,000. The interest on which alone, roughly speaking, will be \$75,000,000, or nearly twice the revenue of the country ten years ago. The per capita rate of taxation before the war was \$2. Now it is \$2. The per capita share in the national debt before the war was \$2. It is now \$25.

Count Okuma, however, is not pessimistic. He spoke eloquently of the necessity for business men to redouble their efforts, and of the need of productive works of all kinds, and thus secure victories in peace, as well as in war.

TAKAHARA GOING HOME. [BY THE ASSOCIATED PRESS.—A.M.] WASHINGTON, Oct. 5.—Mr. Takahara, the Japanese Minister, expects to leave Washington about December 1 for Japan on a month's leave of absence, the first he has taken in several years. In his absence, Mr. Eiki Horiki, first secretary, will be charged with the duties of the office.

Reports have been in circulation that Mr. Takahara would soon be transferred to St. Petersburg or some other European post, in recognition of his successful terms of duty at Washington. A diplomatic source, however, has advised of his physician, who urged upon him the necessity of taking a long rest.

[BY THE ASSOCIATED PRESS.—A.M.] SEOUL, Oct. 4. (Delayed in transmission.)—Mr. Harman and party took a special train today for Fusan. During their visit here, Mr. and Mrs. Harman stayed at the American Legation. While here, Mr. Harman met and talked with a number of the best informed of the foreign residents, and was interviewed by some of the Japanese business men who are anxious to interest American capital in their enterprises in Korea.

LITTLE FEVER ON ISTHMUS. Only Two Cases of Yellow Jack Reported in Last Two Weeks—Refugees Stricken in Colorado. [BY THE ASSOCIATED PRESS.—A.M.] WASHINGTON, Oct. 5.—A summary of the yellow fever situation on the Isthmus of Panama shows that in the last two weeks, or since September 15, there have been but two cases reported—one an Italian, not employed at Panama, and the other an American employe, in whose case the disease was weak. No case of fever has been reported since September 25. During the entire month of September, only nine cases of yellow fever occurred on the Isthmus, seven of which were among foreign non-employees.

STRICKEN AFTER ESCAPING. [BY THE ASSOCIATED PRESS.—A.M.] DENVER, Colo. Oct. 5.—A special to the Republican from Trinidad, Colorado, says that Frank Garza, who arrived in that city Monday from Louisiana, having escaped the quarantine of that State, escaping thence to Husted, Texas, was stricken with yellow fever shortly after his arrival there and is not expected to live. There is no word of a outbreak of the disease idly quarantined.

CANAL ENGINEERS' TRAVELS. COLON, Oct. 5.—The members of the advisory board of consulting engineers of the Panama canal, who arrived yesterday from New York, went by special train today to Mindi, Gatun and Bohio, where examinations will be made of the various sites proposed as suitable for dams. The party will embark on the steamer launches to examine the proposed sites, returning this evening down the canal to Gatun. The party will be accompanied by the Panama Canal Company tomorrow. Saturday will be devoted to Cuba.

CAUSE OF CONFLICTS BETWEEN

CAPITAL AND LABOR.

No Employer, No Legislature, No Government and Not Even Unions Themselves Can Regulate Wages, Knowledge of Economic Law Remedy for Conflicts.

[BY DIRECT WIRE TO THE TIMES.] PHILADELPHIA, Oct. 5.—[Exclusive Dispatch.] In an address on pressing problems, prepared for the "League of Builders' Association" meeting today by David M. Parry of Indianapolis, but read in his absence by a colleague, the cause of the conflicts between labor and capital were laid at the door of ignorance on the part of the majority of the people regarding the economic laws that control industrialism.

"Once a thorough knowledge of economic laws becomes widespread, these conflicts will cease," he said. "No employer or set of employers, no Legislature, no government and not even the labor unions can regulate wages. They are dependent upon economic conditions."

STRIKE ON CHICAGO THEATER. WANTED MACHINERY TORN OUT. [BY THE ASSOCIATED PRESS.—A.M.] CHICAGO, Oct. 5.—The "Lafayette" building, an eighteen-story majestic theater building in Monroe street was brought to a standstill yesterday by a sympathetic strike of building trades. The completion of the structure was being hastened to permit of the opening of the theater November 1.

Electricians started the trouble by walking out three weeks ago. A complaint filed against the contractors that the electrical machinery had been installed in part by non-union workmen was ignored by the employers. The Associated Building Trades were called together when the contractors refused. Business agents went to the building and ordered the 75 men on strike. Among those who quit were painters, steam fitters, marble setters, and electricians. The architectural iron work was said, will join the strike today.

SHORT HUNDREDS OF THOUSANDS.

ILLINOIS FINANCIER AND EDUCATOR IS ARRESTED.

Immensely Wealthy Newton C. Dougherty, Friend of Nicholas Murray Butler, Arrested for Forgery, Following Sensational Revelations by the Grand Jury at Peoria.

[BY THE ASSOCIATED PRESS.—A.M.] PEORIA (Ill.) Oct. 5.—Newton C. Dougherty of this city was arrested this morning on a charge of forgery, following sensational revelations by the grand jury, which had been examining the books of the Peoria School Board. A shortage of \$75,000 was found and the discovery made that the pecuniaries existed over a long term of years. The shortage will reach hundreds of thousands of dollars.

In order to cause the arrest of Dougherty, the grand jury made a partial report today charging forgery. He was arrested promptly on the street but released on \$2000 bail. Dougherty has been city superintendent of schools for twenty-five years. He is immensely wealthy and is president of the Peoria National Bank, a heavy stockholder in the Dime Savings and Trust Company, the Title and Trust Company, the Peoria Livery Company and other concerns. He is a treasurer of the fund of \$175,000 held by the National Educational Association and is a past president of the association. He is a close friend of Nicholas Murray Butler, president of Columbia University and has been for years regarded as one of the foremost educational men in the country.

The news of Dougherty's arrest spread like wild fire and created great excitement. People could not believe it. Although there have been rumors of the gravest character for some time, the friends of the financier were loyal to him.

Shortly before his arrest, and when it was known that he would be arrested, Dougherty stated that if the investigation showed a shortage that he would make it good. He said he would stay right in Peoria; that it was here that he had been honored and that he would stand by his honor. He was sent in his resignation as president and director of the Peoria National Bank.

The charge on which Dougherty was arrested was that of forging a voucher for \$164.50 for coal, which, it is alleged, was not delivered.

Immediately following its partial report, the grand jury reconvened and continued its investigation of the school funds.

DELEGATES VISIT SANITARIUM. PARIS, Oct. 5.—The delegates to the International Tuberculosis Congress spent today visiting sanitariums in various districts. A large party, including Casimir Perrier, former President of France, accompanied President Loubet to Montigny in the Department of du Nord, where the President opened a new sanitarium. Prof. Behring, discoverer of the anti-diphtheria serum, has decided to make a statement to his congress Saturday relative to his reported discovery of a cure for tuberculosis, which Dr. Pierre Roux of the Pasteur Institute, Prof. Metchnikoff, who is attached to the institution, and other specialists consider important, although believing that the announcement was premature.

School Children's Scratch Pads Free at The Times Office.

Any schoolboy or girl bringing the large display advertisement in today's paper to the Times Counting-room, corner First and Broadway, will be given one scratch pad free.

GIVE POWER AND REJOICE.

What Congress Can Do as to Rate Making.

Mr. Townsend's Bill Will Strengthen Commission.

Russia Invites South America to Peace Conference.

(BY THE ASSOCIATED PRESS—P.M.)

WASHINGTON, Oct. 5.—(By Associated Press.)—The House of Representatives today passed a bill to strengthen the Interstate Commerce Commission, which will give it the power to make rates of freight and passenger fares. The bill, introduced by Mr. Townsend, of Michigan, one of the authors of the Eads-Townsend bill, which was passed last winter by the House of Representatives, was passed by a vote of 219 to 191.

"My effort now," said he, "is to make certain that it shall cover what is expected of it. It will embody my ideas, and at the same time it will be a bill which will represent accurately those of the President."

"After making it perfectly clear that the provisions of the measure apply to private cars, refrigerator cars and terminal charges, it will be our purpose through the measure, to confer upon the Interstate Commerce Commission the power to make its findings in any particular case effective within a reasonable time after they are announced."

"Before we have made to great the impression that it is the purpose of the advocates of this legislation to give the Interstate Commerce Commission authority to fix all the rates of a railroad. This is not true. It is intended only that the commission, if complaint shall be made to it that any particular rate is unjust, shall have power, after due investigation, to substitute additional rate, in case the complaint shall have been shown to be well-founded."

"Do you expect that rate legislation will be enacted during the approaching session of Congress?" asked a reporter.

"I have no doubt of it," replied Mr. Townsend.

RUSSIA'S PEACE INVITATION.

(BY DIRECT WIRE TO THE TIMES.)

WASHINGTON, Oct. 5.—(Exclusive Dispatch.)—Baron Rosen, Russian ambassador here, today informed Mr. Root that he had been instructed by the Russian Foreign Office to issue to the American government an invitation to participate in the second world's peace conference, scheduled in form to that sent to the United States.

WASHINGTON BRIEFS.

WASHINGTON, Oct. 5.—(Exclusive Dispatch.)—The Russian ambassador here, today informed Mr. Root that he had been instructed by the Russian Foreign Office to issue to the American government an invitation to participate in the second world's peace conference, scheduled in form to that sent to the United States.

FLASHES FROM THE WIRES.

At Santiago de Chile, the American Minister, John Ricks, was received yesterday by President Alessandri.

Senator Carlos Walker Martinez, an eminent politician and leader of the Conservative party, died yesterday at Santiago de Chile.

An operation for appendicitis was performed yesterday on August Belmont, the banker. The operation reported to have been entirely successful.

Burglars entered the Bank of Springfield, Springfield, Mass., yesterday night, blew open the door of the vault with dynamite and escaped with \$100,000.

Prof. Behring, the discoverer of the anti-diphtheria serum, announces, according to the Paris Mail, that he has found a cure for tuberculosis. The nature of his cure, Prof. Behring says, he will divulge next August.

A dispatch to the Pacific Telegraph from Munich announces that the divorced Grand Duchess Victoria of Russia and the Grand Duke Cyril of Russia were married there several days ago, at the Hotel de Russie.

At San Jose, Calif., Warden Koppel yesterday afternoon swore to a complaint charging Henry Harris, who resides east of Alameda Park, with violation of the game laws, by shooting quail out of season. A warrant was issued.

The presence of the British cruiser Fox at Hodeida, Yemen province, Turkish Arabia, has resulted in a speedy settlement of the British claims in connection with the piratical attacks of Arabs on British ships in the Red Sea.

The methods employed in conducting St. Louis "bucket shops" are being investigated by the grand jury, at the instance of Circuit Attorney Sagor.

Atty.-Gen. Hadley arrived from Jackson City yesterday to participate in the investigation.

Dent H. Robert, managing editor of the San Francisco Examiner, and Miss Elizabeth Woodson, daughter of Mr. and Mrs. Emmet I. Woodson of New York, were married yesterday.

Lord Willoughby de Broghie, eldest son of the Earl and Countess of Leinster, will shortly marry Elsie, daughter of the late W. L. Brown, of New York.

Ex-Representative Perry Simpson, who is ill in the St. Francis Hospital, Wichita, Kan., spent a quiet day yesterday that improved last evening.

Addresses of interest were delivered at the morning session, at Cleveland, yesterday, at the convention of the American Civic Association.

THREATEN TO USE ROPE.

Radical Advocates of Municipal Ownership in Chicago Whipping Aldermen into Line.

(BY THE ASSOCIATED PRESS—P.M.)

CHICAGO, Oct. 5.—(By Associated Press.)—The radical advocates of municipal ownership of street railways arranged today to form a vigilance committee, to use force, if necessary, in the election of Aldermen who vote in favor of franchise extension.

A call was issued, addressed to members of labor organizations, Turner societies, single tax clubs and "all other progressive bodies," urging them to take action to see that the vote of the city in favor of municipal ownership last spring be not negated by the action of the Aldermen who are, according to the proclamation, about to declare in favor of franchise extension.

Several members of the Municipal League made threats of "using a rope" at the Aldermen who are expected to vote in favor of franchise extension.

At the Aldermen's vote on the city ownership of the street car lines.

IN NEST OF ROCKS.

Steamer St. Paul Latest Vessel to Fall Victim of Treacherous Fog. Passengers Safely Taken Off—Ship Cannot Be Saved.

(BY THE ASSOCIATED PRESS—P.M.)

EUREKA, October 5.—The tug Ranger, at 10 o'clock

with five passengers taken from the steamer St. Paul, from San Francisco to Portland, Oregon, which went ashore early this morning near Point Gorda, the steamer St. Paul's passengers were transferred to the tug Ranger.

The remainder of the St. Paul's passengers and crew, 33 in number, are supposed to be on the steamer Vanguard, which is now outside Humboldt Bay, and is expected to arrive here tomorrow.

It is possible, though, that the Vanguard's passengers have been transferred to the Pomona also.

When the St. Paul struck she was 15 miles off her course, and the tug Ranger was on the beach at the time.

The steamer struck at 3 o'clock this morning, and the tug Ranger, 150 yards from the shore, and has been abandoned by the crew, but the tug thought that the vessel will be a total loss.

The St. Paul lies in a nest of rocks, how to the northwest, and with a slight list to seaward, one and one-half miles below Point Gorda, the steamer, she is in good condition, and is being smoothed down considerably since she struck. It is smooth between the wreck and shore, but rough on the outside. That some big craft had been wrecked here, the tug Ranger reported to Eureka this morning at 9:15 o'clock, when a message came summoning a tug. The identity of the craft was then unknown, and it was decided to await the coming of the steamer Roanoke, which, it was thought, might have some news of the wreck. The Roanoke had not seen any craft in distress, and life savers at once left the shore.

When the tug arrived this evening, and the passengers were all on the tug, having preferred the ship, which was in no danger, to the rough, inhospitable coast with no protection. Two hawseas had been sent ashore, and the passengers could easily have gone ashore at any time, but they preferred the ship, which was in no danger, to the rough, inhospitable coast with no protection.

The tug was glad to have the passengers, and without loss of time everybody was taken aboard the tug without accident. The tug then started for Eureka, leaving the wreck shortly after dark. At that time, the tug was in a position to rescue the passengers, but the fog was so thick that it was impossible to do so.

The vessel struck without a hard

blow, and the passengers were all on the tug.

PHILIPPINE STORM LEFT TRAIL OF RUIN.

(BY THE ASSOCIATED PRESS—P.M.)

MANILA, Oct. 5.—(By Manila Cable.) Government reports show that the worst of the storm is in the provinces of Cavite, Batangas and the island of Samar, which made possible the largest acreage planted in the history of the islands has been undone, and it is estimated retarded development one year in the hemp provinces.

In Albay, Sorsogon, Masbate and Samar, fields have been devastated, warehouses destroyed and stocks damaged. Roads are impassable and transportation facilities are crippled. The loss is incalculable.

In Albay and Sorsogon 80 per cent. of the buildings, dwellings, schools and warehouses have been destroyed.

The storm, in connection with the severe drought, which obtained early in the year, will, it is estimated, decrease the receipts of the islands 40 per cent.

The army is a heavy loser at southern ports.

Mal-Gen. Corbin and wife sailed today for Australia on a two months' leave of absence.

workmen had not yet reached the works. The roof of Mill No. 13 was blown off and one of the walls demolished. Houses in the vicinity of the mill were damaged slightly.

MUNICIPAL OWNERSHIP.

NEW YORK, Oct. 5.—Many prominent men met here today to determine what phase of the municipal ownership problem as it appears in Europe shall be studied by a commission which will be sent abroad, representing the National Civic Federation. Samuel Gompers, first vice-president of the Civic Federation, presided. August Belmont, the president, sent a letter to the convention outlining the purposes of the commission.

PRESSED HIS SUIT WITH MOBE.

CHICAGO, Oct. 5.—A jury in Judge Cary's court today gave Miss Mary Mendon a verdict of \$500 against Theodore Kevekorde, a recorder of Vandenberg, Ind. Miss Mendon, a singer known on the stage as May Melba, had asked for \$20,000, alleging breach of promise to marry.

The plaintiff first met Kevekorde in 1908 while she was playing at Indianapolis. When she left the city, she said that Kevekorde, aided by an automobile, followed her through the State and then proposed. Miss Mendon said that he was accepted and August 6, 1908, was set as the date for the wedding. She

went to Evansville, Indiana, Kevekorde's home, on that day, but when Kevekorde was found, Miss Mendon said, he declared "it was all off." A few days later, she heard of his marriage to another woman.

EXPLOSION SHAKES DELAWARE.

WILMINGTON, Del., Oct. 5.—Wilmington and surrounding towns were shaken early today by an explosion of powder at the Dupont powder works, just outside the city limits. The force of the explosion was felt for a distance of 12 miles. No one was injured as the

WHERE POINT GORDA IS.

(BY THE ASSOCIATED PRESS—P.M.)

SAN FRANCISCO, Oct. 5.—Point Gorda is 14 miles north of the Golden Gate, fourteen miles south of Cape Mendocino, and thirty-two miles south of Eureka.

The St. Paul was owned by the San Francisco and Portland Steamship Company, an adjunct of the Pacific Mail Steamship Company, and was under command of Capt. Clement Randall. She left this city at 11 o'clock Wednesday morning for Astoria and Portland. On board were eleven passengers, of whom seventy-eight were in the cabin. In the hold was a cargo of 2000 tons of general merchandise.

A valuation of \$250,000 was today placed by the Pacific Mail on the vessel, and the first mail was sent to the St. Paul, and she was said to have been fully insured. Her cargo was also fully insured.

Noted Chicago Physician and Chemist Commends Duffy's

Dr. Eidherr, a leading consulting and analytical chemist, states that he finds Duffy's Pure Malt Whiskey perfectly pure and entirely free of coloring matter, wood spirits and fusel oil.

"I pronounce Duffy's an excellent tonic-stimulant, tissue builder and invigorator, which can be used by young and old for wasting diseases, nervous debility, loss of appetite and, in short, in all cases where an effective tonic is required."

In his original report he says:

The samples of Duffy's Pure Malt Whiskey submitted to my laboratory for chemical examination were found perfectly pure and entirely free of any and methyl alcohol (wood oil and wood spirits), and also devoid of coloring matter. Comparative tests have been made with samples of Duffy's Pure Malt Whiskey, bought from different drug stores in this city, with the same result. On basis of these examinations, I pronounce your preparation as an excellent tonic-stimulant, tissue builder and invigorator, which can be used by young and old for wasting diseases, nervous debility, loss of appetite and, in short, in all cases where an effective tonic is required."

DR. E. M. EIDHERR, Chicago, Ill., July 3, 1905.

Duffy's Pure Malt Whiskey

has been prescribed by doctors and used chiefly in over 2000 leading hospitals, as the greatest tonic-stimulant known to medicine for half a century. It is the only positive preventive and cure of consumption, pneumonia, bronchitis, coughs, colds, malaria, low fevers, indigestion, constipation, and every form of lung, bowel, and stomach trouble. It makes the old young and the young strong. Duffy's contains no fusel oil and is the only whiskey recommended by the Government as a medicine.

CAUTION—When you ask for Duffy's Pure Malt Whiskey be sure you get the genuine. Look for the "Old Chemist" trade-mark. Imitations are absolutely dangerous. Duffy's is sold by all reliable druggists and grocers, or direct, at a bottle. Be sure the seal over the cork is unbroken. Medical booklet and doctors' advice free. Duffy's Pure Malt Whiskey Co., Rochester, N. Y.

BOND'S GOLDEN BREAD

Bond's "Golden" is served on many tables where only home-made bread was served heretofore.

Will Part of This \$100 Be Yours?

Every one has an equal chance to win one of our seven prizes. This \$100 will be divided between the first seven people sending us the nearest correct list of customers selling Bond's "Golden" Bread. We doubt even if the winner of the first prize will have an exact, correct list. We sell "Golden" to a good many people, and even if you think your list is a few names shy you've a good chance for a prize.

First Prize \$50, Second Prize \$20, Third Prize \$10, Four Prizes Each \$5

On Pico Street

We have thirteen customers selling Bond's "Golden" Bread. Better look over your list and see how many names you have for Pico street. This will help you a little.

In our next ad we'll give you another such hint about some other street.

We're hearing every day from people how they're getting along with their list. They think it quite interesting and are surprised at the many times they're told "yes."

Contest closes night of October 20. Send lists to Bond Baking Co., 328 San Pedro St.

"Golden" Bread is thoroughly mixed and kneaded, baked evenly all through, light and flaky and tasty. No lard used in the making.

Bond bakeries 211 N. Spring, 419 S. Broadway, 223 W. Second.

OLDEN GOLDEN DAYS GONE BY.

Laughter Like Surf Rolls at Fitch's Feet.

"Silver-tongued Tom" Talks for the Pioneers.

Paints the Early Days With Magic Brush.

Tom Fitch—of the whitened locks and

silvered tongue—talks to an audience in

Blanchard Hall last night, and sent

them away to the echoes of their own

laughter and long reverberations of ap-

plause. He kindled them with his wit,

and made them glow with his elo-

quence, and gave them for lasting

reminiscence the mirth of his hesi-

tant smile.

To create funds toward the erection

of a Pioneer Society building in Los

Angeles he had lent himself, so for

pretext of the evening the stage held

M. F. Quinn, and for vice-presidents

there were W. H. Workman, Joseph

Mesmer, E. K. Green, R. W. Ready,

H. P. Burns, H. D. Barrows, Will D.

Gould, J. Kaufman, J. M. Quinn, Gen.

H. G. Otis and ex-Judge Widney. Miss

Mary Merrick, as vocal soloist, con-

tributed to the charm of the occasion.

As an admittance charge of 50 cents

was made, and the auditorium was

well filled, the efforts of Col. Fitch and

his pioneer associates in the under-

taking were not without financial re-

sult.

"The Olden Golden Days"—who

knows them better than Tom Fitch?

More than that, who can make them

live again so picturesquely? He was

among them, a gifted member of "The

Old Guard," when Bret Harris and

Stoddard and Mark Twain and "Steve"

White and a score of other Arizonans

of Flanders were lusty, and you and

I were away off in the dust-covered

distance counting our nursery rhymes.

Lights and shadows of early Califor-

nia, the pioneer life, the pioneer

struggle, the pioneer triumph, the

struggle for the land, the struggle for

the right, the struggle for the future,

the struggle for the present, the

struggle for the past, the struggle for

the future, the struggle for the

SUFFERERS' RETREAT SOCIETY GIRL'S AIM.

MISS GEORGINA JONES.

TENNYSON'S "Dream of Fair Women" will have its poetic interpretation in the romantic garden of "Miramar," Santa Monica, on the evening of the 26th inst.

The presentation of this dramatic play will be under the supervision of Miss Georgina Jones, youngest daughter of Senator and Mrs. John P. Jones. Miss Jones is deeply interested in the furtherance of a scheme for a consumptive's open-air hospital in California, and the affair in contemplation is in raise money which shall form a nucleus of a substantial fund to be devoted to this cause.

Senator and Mrs. Jones will act as host and hostess with Miss Georgina, and the gates of "Miramar" will be hospitably thrown open to the public on the evening of the function. A number of prominent society girls have interested themselves in the affair and every plan has been perfected for a most artistic entertainment.

The scheme which Miss Jones is leading to further has been started by a band of workers at Oceanside, half way between Los Angeles and San Francisco, who are taking measures to institute a retreat for consumptives, which shall have every desirable feature possible.

Though quite a young girl, with every social enjoyment before her, Miss Jones has preferred to employ her energies in planning to help the victims of the great white plague.

No keeper of hostilities or renter of houses could carry on business for one year should he admit consumptive patients as tenants, and though the landlord is not to blame, the results work terrible hardships, at times.

Miss Jones has been especially exercised lately over a case which came under the eye of a young woman visitor from the East, a few evenings ago. It was late and she made her way immediately to one of the finest hotels. While awaiting her turn at the clerk's desk, she noticed a party, the sadness of which had appealed to her in the journey across the continent. A frail little woman in the last stages of tuberculosis was standing supported by one of her three daughters, while a man with a troubled face, presumably the husband, was negotiating with the clerk. "I will give you any price," the man was saying. "Very sorry," the clerk replied, "but we have no room in the house. The young woman saw the party turn away and she followed, only to see many repetitions at other hotels.

In the face of such daily occurrences as these, Miss Georgina Jones has responded as one of a committee to work for the tent hospital fund.

EVENTS IN LOCAL SOCIETY.

THE ladies of the Independent Church of Christ gave a lovely garden party last evening on the beautiful grounds of Mrs. T. S. Fuller and Mrs. C. A. Leighton of No. 2117 and 2126 West Twenty-fourth street, which adjoin. Japanese lanterns shone and among the shrubs and flowers were bright rugs and refreshments. Above the tables Japanese umbrellas hung in gay effect and at one end of the garden a bandstand had been erected surrounded by canvas over which graceful date palms and papyrus made a most attractive canopy, under which the wonderful Chiarella with his band of trained musicians sent forth pleasing strains upon the soft night air. On the broad paths of the Leighton home Indian rugs and blankets and cozy seats made an attractive retreat where punch was served by a bevy of pretty young girls in dainty gowns.

A very special feature of the evening was the flower dance as given by little Miss Bernice Marcher, a fascinating little girl in airy fairy garments, who rivaled the blossoms which she represented with her beauty and freshness. Recitations from Dickens by Miss Hazel Tobins were much enjoyed, as was the vocal music contributed by Miss Helen Tappe, Mrs. Roland Van Hunt, Mrs. W. A. Fletcher, Miss Geraldine Thompson and S. E. Harvey.

The refreshment booth was in charge of Mrs. M. M. Gillespie and her assistants were: Misses Charles Andrews, Tatum, Steeler, Dixon, Paulin and De Nick. Young girls who assisted in serving ice cream were: Misses Marie Key, Helen Boobyrell, Mabel Brown, Rose Cook, Joe Moloney, Dot Barrington and Beniah Kirby. At the coffee booth, Miss Gladys Holmes, Dora Holmes, Amy Holmes, and Amy Hutchinson presided, while the dainty gown girls at the punch table included: Misses Jessie Andrews, Edna Letts, Gladys Letts and Reed Lewis.

Assisting Mr. and Mrs. Leighton and Mr. and Mrs. Fuller in receiving were a host of handsomely gown women who included: Misses Joseph B. Banning, L. W. Blinn, Lynanna Farwell, Fred W. Flint, J. T. Corrie, Schumacher, Frances John, J. S. Barum, H. C. Cates, Caroline Letts, Charles T. Hancock, with her little stand, child Douglas, S. A. Rendall, M. J. Owens and R. B. Williamson.

Married at the Portsmouth.

On Wednesday at 1 o'clock, a wedding ceremony was solemnized at the Hotel Portsmouth, Miss Lillian C. Towne, of Santa Barbara, becoming the bride of James S. Earle of this city, with Rev. W. A. Knibben officiating. The bride was a traveling suit of blue cloth and carried white roses. Only intimates, friends and relatives were present. Mr. Earle met his bride in Santa Barbara, while there as manager of the Arlington Hotel, she being one of the belles

Right in the Heart of it

Why not invest where values are such that rentals will pay substantial dividends on the investment? Such property can always find buyers at a profit.

Property on Fifth, Sixth and Seventh streets, east of Main, also on San Pedro street and Central avenue, lies in Los Angeles' greatest future center of industrial activity.

Anyone who will take the time to investigate the actual conditions which exist throughout this district will quickly realize WHY property values are bound to increase nearly twofold in the next 18 months.

The Union Depot—double track trolley system on East Seventh to Boyle Heights—the New Market at Third and Central—Market Bank Building—and new route of Pasadena cars via San Pedro and Sixth Streets, are just a few of the signs which indicate that the era of commercial development in this thickly populated district has begun in real earnest.

Our lists include the best money-making properties in this great section. In fact they are all in the "heart of the heart of it."

BRAVE FIGHT NEARLY WON.

Calvary Baptist Church to Have Fine Home.

Small-pox-stricken Pastor is Strong in Courage.

Ten Thousand Dollars, and No Rich People.

After one of the hardest struggles in religious history in Los Angeles, Calvary Baptist Church will build a handsome \$100,000 structure on the site of the present chapel at Second and St. Louis streets.

In spite of the fact that the money has had to be provided without the welcome aid of wealthy members, because there are none, and in the face of almost insurmountable obstacles, not the least of which was to see the loved pastor stricken with a contagious disease from which he was not expected to recover, the congregation has triumphed and the church will be built. Four years ago the church was organized and since that time the growth has been steady, but the members have been called upon to rally to the support of the church. They gave as they were able, and a small chapel was erected and later a lot purchased which gave the Baptists of Boyle Heights a fine corner site.

Later an addition was built to the chapel, and for a year this building has served to house the steadily-increasing congregation. The demand for more room became imperative, but it was almost impossible to raise money enough to build a new church. The church has been the subject of Sunday-school and church fairs, and there are nearly one hundred and fifty people in the Sunday-school.

A plan was arranged whereby a fine structure could be erected and the present chapel could be used as an additional room for Sunday-school purposes.

Rev. William H. Walker, the pastor, has been the man of energy who has pushed to completion the successful plan.

But misfortune came this summer and Rev. Mr. Walker has been obliged to remain for weeks quarantined in the parsonage at No. 125 East Second street.

The story of his sickness is pathetic. During the summer vacation, while camping with his family near Alpine Tavern, Rev. Mr. Walker was called to attend a lady stricken with a severe illness. About ten days later the pastor was attacked with a strange mal-

THE CITY IN BRIEF.

NEWS AND BUSINESS.

Limbs Broken on Street.

Mrs. E. Beckman, No. 2145, West Second street, stepped in a depression in the walk while crossing First street at Main yesterday. A fracture of the left limb was reduced at the Receiving Hospital and the woman taken to her home.

Expression Recital.

The department of dramatic art and expression in the new Conservatory of Los Angeles, in the Blanchard Building, will give its first recital tonight, in Symphony Hall. The department has been doing excellent work under the direction of Mrs. Zoe Ballard Fuller, Mrs. Helen M. Field and Garnet Holme.

They've Come to Stay.

Headed by Capt. L. G. Hunt and wife, a party of twenty-six persons arrived in Los Angeles yesterday in a special car, which came through from Chicago without change. When the car left Chicago there were thirty-two members of the party, but some of them stopped at Ogden and others at San Francisco.

Edwin Emerson.

Tonight, at Brunch Hall, Edwin Emerson, who was a war correspondent with both the Russian and Japanese armies in the field, will talk upon his personal impressions of the conflict. Mr. Emerson illustrates his lecture with a large number of personally secured war pictures, besides other material of interesting educational value.

A Polish Mission.

Rev. W. Organick, a Polish priest, arrived in Los Angeles yesterday, from Washington, D. C., and is a guest at the Cathedral residence. Next Sunday he will open a mission for the Polish Catholics at the Church of Our Lady of Angels, which will continue one week. This will be the first special work undertaken for the Poles in Southern California. It is estimated that there are about 200 Polish Catholics in this city.

Grass Fire on Hills.

Shortly after noon yesterday a grass fire broke out in the hills at the head of "The Glen" on Avenue 38, and it soon spread over the hills, reaching down to the canyon at the head of Avenue 38, and burning over many acres. Engine No. 1 and hose wagon No. 1 responded to an alarm, and the men simply kept the fire from reaching any of the cottages, allowing it to clear the hills of the dried grass, weeds and brushwood. Only once was any building in danger, and the prompt work of the firemen and residents of that neighborhood turned the fire in another direction. The fire burned until after 8 o'clock.

BREVITIES.

Times' "Liner"—Advertisements—Important change in rate for Sunday classified advertisements. Commencing Sunday, October 1, 1934, and thereafter, the rate for "Liners" will be 15 cents per word for each insertion; minimum charge 25 cents, as at present. This slight advance is amply justified by the present Sunday circulation of the Times, which averages over 60,000 copies. (When the 1-cent per word rate was established in 1925, the Times Sunday circulation was only 14,000 copies.) The "Liner" rate for the daily 1-cent per word will stand as at present.

It is a pity to neglect your eyes. You are drawing on their reserve power if you don't get glasses when you need them. Best All crystal reading lenses in 10-year gold-rimmed frames at \$1.50, fitted to your eyes by graduate state-registered opticians. Satisfaction guaranteed. Clark's, 381 South Spring.

The San Francisco office of the Los Angeles Times is in room 41, Chronicle building, Telephone Main 1473. Subscriptions and advertisements taken. Visitors will find copies of the Times free, and are welcome to call and read them.

Dramatic Club. A first-class dramatic club now organizing under the direction of Mr. Garret Holmes. All interested in the work and its presentation should avail of the opportunity. Apply Conservatory of Music, 231 Hill st.

The reception extended Dr. Howard this evening by the Church of the Unity promises to be a brilliant affair. The programme appears in regular columns of this issue. All interested are invited.

Cummock School now open. Regular work begins Monday, Oct. 8, 10:30 a.m. Courses—Expression, Academic, Physical Training. Children's, 1508 S. Figueroa, st.

Miss Holcomb's juvenile dancing class reopens Saturday, October 7, 2:30. Adult beginners' class, October 7, at 8. Kornblum Hall. Main 7458.

Children's physical culture and reading classes—Cummock School. Enrollment Saturday, Oct. 7, 10:30 S. Figueroa, st.

School of Art and Design, Westlake. Students enroll daily. Home 7773. Vazy Steer's hair store. Tel. 5534. Dr. H. Gordon Bayless returned.

NEW MEDICAL LIBRARY.

Twenty-five-Thousand-Dollar Building for Local College, Which Opened Auspiciously Yesterday.

Opening exercises of the Medical College of the University of Southern California were held yesterday morning in the college on Buena Vista street. Plans for the new year were outlined by Dr. Walter Lindley, who spoke of the advantages offered by the school, of its remarkable growth within the past few years, and of its present standard of scholarship.

Dr. Granville MacGowan outlined a vigorous policy to be pursued by the faculty and spoke of the demand of the college for a higher class of preliminary education and said the matriculates are in every instance graduates of a high school and in many cases of the leading colleges east and west.

The clinical department was thrown open to the public for inspection and the guests were allowed to visit the up-to-date infirmary where provision for the treatment of almost every disease is made. The department building was erected in June, and is of two stories. There is a women's and a men's ward. Hundreds of cases are already on the list for regular attention, and as the school is situated in a part of the city where there is a demand for an instructor, and as a result of the poorer classes, many are benefited in the scrupulously clean hospital.

Dr. J. A. Collier will have charge of the clinical building and clinics will be held under his direction each day.

An address to the faculty this year is Dr. Lyman B. Stooker, who will have charge of the department of physiology and physiological chemistry. The new professor has had wide experience as an instructor, and is a strong man for his special work. The school has a larger attendance than ever before in its history, there being 125 students in the several departments.

Through the generosity of Dr. Walter Jarvis Buehler, who donated the ground, a medical library building will be erected on Buena Vista street opposite the college. It will be a handsome structure. The foundation walls will be of granite and the deep porches will be ornamented with Corinthian pillars. The structure will be entirely of pressed brick and will have a plate glass front. Robert D. Farquhar is the architect and the plans for the building are elaborate. The estimated cost is \$25,000.

WEST GATE LODGE, No. 35, P. A. M., will confer the first degree this (Friday) evening.

AUGUST WACKERDARTEL, Secretary.

Cecilian

No Sulf Fingers
No Treacherous Memory
No Lack of Repertoire
"The Perfect Piano Player"

THE "CECILIAN" does the mechanical work for you; it is a statement of fact when we say that the musical results achieved, that is, expression and tone quality, are hardly to be distinguished from the playing of a really great pianist and musician. Tone is graduated instantly from pianissimo to fortissimo, technical difficulties are as easily overcome as a simple scale by the amateur, and effects are limited only by the intelligence of the performer.

THE "CECILIAN" can be attached to any piano, and played by anyone.

THE "CECILIAN" amuses you in that it plays all the popular music of the day.

THE "CECILIAN" is a help to the serious student of music; it gives access to the vast fields of musical literature.

THE "CECILIAN" is an educator, and assists materially in mastering time, rhythm and form.

CECILIAN SELL FOR \$250.00

extend to you a cordial invitation to come and see and hear the Cecilian.

SHE CATCHES THE BURGLAR.

But Dashing Mrs. Wilmot Has to Let Go.

Thrilling and Determined Chase a Failure.

By Threatening Violence He Saves His Booty.

With Mrs. C. A. Wilmot, a vivacious young woman, clinging to his shoulder, an unknown sneak thief, who had burglarized the home of Mrs. J. H. Goucker at No. 114 West First street at 3:30 o'clock yesterday afternoon, escaped his persistent pursuer only

rauder, Mrs. Wilmot continued until she closed in upon him and finally got hold of his shoulder. When he broke away he took to his heels with a derisive laugh, and was lost from the sight of his determined feminine followers.

The women gave the patrolmen an excellent description of the thief. Although apparently not more than 20 years of age, he acted with professional cunning, and is considered an old hand.

Mrs. Buskirk is the mother of Bessie Buskirk, a vaudeville actress, and as a self-deputed police officer Mrs. Wilmot is entitled to some sort of a "heroine medal." She resides at No. 544 Wall street.

POSTOFFICE DELAY.
Supervising Architect Unable to Come Now, and Rough Plans Already Made Not Returned.

This city will not have a visit, after all, from the supervising architect, Taylor, of the new postoffice building—at least for some time.

A special dispatch from Washington says that it will be impossible for Mr. Taylor to visit Los Angeles this month; next month it will be too

MRS. C. A. WILMOT.
Who bravely caught a burglar, but had to let him go or be thrown down a bank.

by threatening to throw her down a steep incline.

The chase between burglar and courageous Mrs. Wilmot extended over four blocks, and from every woman and children were attracted by the exciting dash. Trailing in the rear was Mrs. Hattie Buskirk, mother of the plucky Mrs. Wilmot, and all along the line the cry of "thief" was taken up, and at each corner were made additions to the racing crowd.

Mrs. Wilmot, however, met with no male assistance, and resolving to stop the burglar at all odds, refused to release her hold on him until, with a volley of oaths, he prepared to execute his threat of violence.

The burglar was seen making his way through the rear of the yard surrounding the Wilmot residence, and when Mrs. P. Fisher, a near-by neighbor, called for help, Mrs. Wilmot lost no time in attempting to intercept the man. Officers arrived shortly afterward, but were unable to continue the chase, owing to the lack of a suitable conveyance.

Nearly exhausted from her strenuous exertion, Mrs. Wilmot returned to her mother's home, and until late last evening was surrounded by friends who showered congratulations upon her.

Mrs. J. H. Goucker, residing at No. 114 West First street, is minus a watch recently presented to her by her husband, and valued at \$150. Mrs. Goucker was reclining on her front porch yesterday afternoon without a thought of unannounced visits from burglars, while her child slept in a front room. Hearing a slight noise the woman entered the house in time to see the burglar crouching behind a bed.

She ran screaming into the street, and shouted to her neighbors that her home was being robbed. With remarkable presence of mind, indicating that she was no novice, despite her youthful appearance, the thief emerged from the residence with a small pad and pretended to be making some important notes.

To the inquiries of the baffled neighbors the robber calmly stated that the woman had evidently gone violently insane, and suggested that he give immediate attention. With this parting shot he began to slowly saunter down First street.

The excitement at the Goucker home was sufficient to enable the man to secure a good start, and not until he started to cross the premises of Mrs. Hattie Buskirk, No. 114 West First street, did he evince traces of haste to leave the neighborhood.

At this juncture Mrs. Fisher and Mrs. Wilmot "caught on." Mrs. Wilmot, a daughter of Mrs. Buskirk, at whose home she was visiting, took the lead after him.

Mrs. Buskirk stumbled and fell, but bent upon apprehending the ma-

late. He has decided not to send anyone out but to wait and talk over the matter with Senator Flint, the details of the plans.

The rough plans sent out for the approval of the various Federal officers have not yet been returned to Washington with the necessary comments. Senator Flint will probably take them back in person.

He expects to leave some time in November, to be there before Congress convenes.

All of the Federal officers have not yet seen the plans. Several changes have been suggested for the Postoffice Department. Judge Welborn has looked them over and found them satisfactory so far as his court is concerned. They have also been seen by the clerk and approved. The United States Marshal and some of the others have not yet seen them.

No action will be taken on them until Judge Ross has seen them. He is now away, and his return is somewhat uncertain.

SHAKES FIST, CAR JUMPS.
And Rev. Mr. Burdette Threatens to Derail All Coaches That Go Scooting Past Him.

Rev. Robert J. Burdette has suddenly worked up a reputation as a wizard in Pasadena.

Yesterday he waited on Bellefontaine avenue for a street car, but when it came whirling along, the haughty dignitary on the "front end," gave him a cold, stary eye and waved him aside, as the car roared past, without even hesitating.

The wrathful parson turned and shook his fist after it. As he did so, the car gave a grunt and a snort and went skidding, screeching off the rails.

When they tried the thing laboriously on the "front end," gave him a cold, stary eye and waved him aside, as the car roared past, without even hesitating.

FOR SAFETY IN THEATERS.

Complaints Coming Against Managers of Six.

Superintendent of Buildings Gets a Move on.

Will Invoke Law to Enforce City Ordinance.

Superintendent of Buildings J. J. Backus will this morning swear to complaints against the managers of six theaters for failure to comply with the provisions of the fire ordinance passed recently by the Council. Backus sought the complaints last evening, but so late that they could not issue until today.

The playhouses to be officially attacked are the Chutes Theater, the Casino, the Star, the Broadway, the Lyric and the Cinescope.

This action by the Building Superintendent is the result of a long fight waged by the theater companies against the ordinance, and the issuing of the warrants is a part of the vigorous plan outlined by the Building Superintendent against those who he declares are operating show houses in violation of the law.

The specific charge is the failure to provide the sprinkling system specially referred to in the ordinance. The system provides for a series of pipes to be run around the stage and over the tops of the pieces of scenery. These pipes are perforated, and the stage can be drenched in a moment.

The theaters mentioned are running nightly. It is alleged, in violation of the ordinance, and Superintendent Backus will bring the matter to an issue in order to test the efficacy of the fire ordinance with reference to the safe conduct of theaters.

The great difficulty in the matter, said Backus yesterday, "is that all of the playhouses in this city were built under the old ordinance, and criticism has been heaped upon me by many."

"Those who know the ordinance is violated wonder why prompt action is not taken in every flagrant case. My hands are tied in a number of instances, however, and I am not able to do what I would like to accomplish regarding those who break the law."

"I am determined to do all I can, and I have asked Fire Chief Lips to ascertain for me just how compliance with the ordinance is being avoided. The chief and myself are making a personal investigation of the theaters and something will be doing immediately."

The superintendent explained that theaters are required to keep barrels of water on the stage and in convenient places; that buckets, axes and other appliances for fire fighting must be supplied. In several instances none of these provisions are made against the outbreak of fire.

"The question of exits is a most serious one," said Backus, "but here again I am weak, as the ordinance does not allow me sufficient leeway."

"Fisher's Theater is not complying with the ordinance, but I have ordered a large door cut through the west side of the building into the adjoining alley, which, when completed, will make, I believe, a sufficient exit."

On Main street the Novelty Theater, which opened during November, but the house has not been provided with proper fire-fighting appliances, and the investigation made yesterday by the superintendent showed where the ordinance will be violated unless the sprinkler system is provided.

Backus is thoroughly aroused to the alarming situation, and his plans provide for the prosecution of violators of the ordinance and for the pushing of a vigorous campaign of reform for the safety of the public.

The investigation now in progress has disclosed the startling fact that hundreds, if not thousands, of theaters goers have nightly risked their lives in houses that are not supplied with the necessary fire protection. The campaign is expected to bring good results.

POLICEMEN ROAR THREE SCORE.

LOUD PROTEST TO CHIEF AND MAYOR AGAINST DRILL.

Nearly Half the Force, Headed by a Sergeant, Complains That Military Exercises Under Lenhausen are Too Strenuous in Full-Dress Uniform and the Hot Weather.

A mighty roar that echoed and re-echoed throughout police headquarters, went up from the throats of over 150 patrolmen yesterday.

The echo, carried by three score, reached the ears of Acting Chief Auble and shortly afterward Mayor McAleer heard a rumbling noise over in the direction of the City Hall.

He hastened and learned the cause of the trouble.

Nearly every officer on the force was up in arms because of certain drill regulations. It appears that Charles Lenhausen, acting sergeant and drillmaster, has been putting the patrolmen through strenuous exercises in the armory twice each week—drill days—and the bluecoats have come to think that their burden is too great to carry.

Since Lenhausen has had charge of the drill, the policemen say he has forced them to go through intricate military maneuvers that are not at all necessary for the good of the service.

Several of the older patrolmen, who have done yeoman service, are said to have nearly collapsed during the strenuous hours of drill.

Yesterday afternoon Acting Sergeant Walker, backed by sixty policemen, called on Chief Auble and registered a vigorous protest. The chief stated that he had not been fully informed concern-

SUNNIEST WOMAN OF SUNSHINE HERE.

MRS. CYNTHIA WESTOVER ALDEN.

MRS. CYNTHIA WESTOVER ALDEN, well-known literary woman, and founder and promoter of the International Sunshine Society, is a guest in Los Angeles and Santa Monica for a few days. Mrs. Alden came on a fast trip from her New York duties to be at her old home in Santa Monica for the anniversary festivities of her father's birth, on the 11th inst. of that month.

Aside from this fact, October 3 is the anniversary of the coming of the family over the plains to its western settlement. On the evening of the birthday a party of seven will be assembled to celebrate that memorable journey. The circle is still unbroken.

"I do not remember the journey," said Mrs. Alden, "but I can make a good bluff at telling the stories."

"Like her father," Mrs. Alden is a good story teller, having been in literary work in New York City for twenty-five years. For twenty years of that time she acted in an editorial capacity. At present she is conducting a department in a prominent magazine in conjunction with her world-famed Sunshine project. In 1887 she was married to John Alden, a relative of the good old poetry book John—who has been for years on the editorial staff of the Brooklyn Eagle.

There is probably no woman in the literary world who has helped more girls or trained more amateurs in the journalistic profession than this same Sunshine president.

Last evening Mrs. Alden went for a swim in the plunge with her father.

ing the new drill regulations, but he assured his men that he would investigate at once take proper steps in the premises. The Mayor's attention was at the same time called to the complaint of the policemen.

WILL LOCATE STATE STATION.

COMMISSION COMING TO DETERMINE UPON SITE.

Body Headed by Governor to be in Los Angeles Thursday to Find a Home for New Pathological Laboratory and Experiment Branch of Agriculture of University.

The State Commission for the selection of a site for the State Pathological Laboratory and Experiment Station will meet at 1:30 o'clock next Thursday afternoon at the Chamber of Commerce in Los Angeles, called together by Gov. Pardee, chairman of the commission, for the purpose indicated by the title of the body. All individuals or communities in Southern California having suggestions to make have been invited to address the commission through its secretary, Victor H. Henderson, Berkeley, Cal.

The act providing for the establishment and maintenance of the station and laboratory was passed by the last Legislature, the purpose being to arrange for investigation of tree and plant diseases and pests and for agricultural experimentation.

Under the terms of the act, the pathological laboratory must be located in one of the seven counties of Southern California, and this location is to be determined upon by the commission, which includes Gov. Pardee, Benjamin Ide Wheeler (president of the University of California), and Prof. E. J. Wickson of the chair of agricultural practice in the State University. It is expressly noted in the act that the laboratory and experiment station may be located on lands already belonging to the State at Whittier or Patton, or on lands given or leased.

Upon selection of a location, the university regents are directed by the act to construct and equip the laboratory; to receive and manage such gifts or bequests as may be made, and to select not less than two experts in plant pathology, and such assistants as may be needed, to have active charge of the laboratory and of the investigations and field experiments. The results of experiments are to be reported to the regents.

The commission also will establish and maintain a branch agricultural experiment station in connection with the agricultural experiment work of the State University in regard to the best horticultural management, fertilization, irrigation, the handling of fruit for market, the introduction of new varieties of fruit, and other investigations.

PATROLMAN JOHN T. COLLINS.

was No. 2. The announcement of his death caused general mourning among his associates. Before coming to Los Angeles, Collins was for three years employed as a turnkey in the penitentiary at Carson City, Colo.

Collins resided at No. 604 North Belmont street. He leaves a widow and two daughters. The funeral services will be conducted at the residence at 2 o'clock. The remains will be removed from North & Taylor's undertaking parlors to the cathedral, and interment will be made in Calvary Cemetery.

AUTO INJURES MESSENGER.
R. B. Lenthin, a messenger boy, was struck by an automobile on Pico street and taken to the Receiving Hospital, suffering with a severe injury to his right knee.

STREET HOT IN DEMAND.

Two Railroads Seek Spur Track Rights.

Southern Pacific and Santa Fe in a Contest.

No Protest by Eighth Ward Property Owners.

Will the Santa Fe or the Southern Pacific acquire the right to build a railway spur on Jackson street?

This question is agitating the residents of the Eighth Ward, and apparently the management of the companies, as their agents have been very active in their efforts to get signers to their petitions for the franchise.

Today the matter will come up for a hearing before the Board of Public Works.

The Santa Fe has looked with covetous eyes on Jackson street, it is said, ever since it became obvious that this section of the city is to be a great warehouse and factory district.

Some time ago a movement was started, alleged to have been inspired by the Santa Fe people, for the opening of Jackson street through to Alameda.

At present there is a break in the street between Amelia and Lafayette streets. This is the section which it is proposed to secure so that the street may run direct from the Santa Fe main tracks near the river, to Alameda street.

The proposition met with favor among the property owners, and was unanimously signed. The expectation was that the improvement would be made in the usual way, the property abutting on the street being required to enter two railroad tracks.

Later, it is said, the Santa Fe made known its desire of securing a right of way for a track on the street.

Then the Southern Pacific agents entered the field and circulated a petition, asking that it be given the right of way, and agreeing to stand all the expenses of the proposed improvement.

The Santa Fe later acquired trackage rights on Center street to Los Angeles Soap Works.

CHANGE OF SENTIMENT. Then, it is said, a reversal of sentiment came to the Eighth Ward.

They began to realize, when Banning street frontage jumped up to a price of \$100 a foot, that the street was in line for warehouses and factories, and that their property would be more valuable for this purpose than for little cottages.

To begin with, the Eighth Ward Improvement Association was inclined to make a bitter fight against these encroachments of railroad trackage in the street.

Now the association is acquiescent. In fact, it is in the line of the idea of the location of large warehouses and factories.

It sees the handwriting on the wall, and the increase in property values which is sure to follow this transformation.

Rev. Dana Bartlett, president of the Eighth Ward Improvement Association, said last night: "We shall not appear to protest against the granting of this right of way, in fact, we look upon it with favor. The association does not favor either railway company. Which ever one gets the franchise, we believe it will be a benefit to the neighborhood as a factory district."

PROTEST SMALL OWNERS. "I understand the opening of several important industrial concerns is contingent upon the granting of the right to place trackage on Jackson street. What we shall do is to do our best to get the small property owner, and see that he is protected in getting fair prices for his property."

These small owners are being played whereby he is tied up before he realizes the value of his holdings.

"We shall enable these small owners to sell out to the manufacturing concerns and warehouse companies at prices which will enable them to buy other sections of the city."

"Now that the railroads have already possession of several of the streets, we realize it is useless to attempt to stand in the way of this industrial development. We expect here a great factory district, and we are shaping our plans accordingly. I do not believe any property owner will enter a protest against the granting of the right of way on Jackson street."

As several large industrial concerns are on the point of locating in the Jackson street district, it is hardly a bone of contention between the Santa Fe and Southern Pacific companies.

A large property owner on Jackson street said last night: "If the Santa Fe will meet the offer of the Southern Pacific in regard to putting up for the expense of street opening, we shall be inclined to favor that company. We feel grateful to the company that built the levee along the Los Angeles River, and thus protected our homes from the possibility of damage by high waters, and all things being equal, we shall be inclined to favor the Santa Fe."

The company that proved itself our friend in time of need."

SAN DIEGO. ODD FELLOWS PARADE. SAN DIEGO, Oct. 5.—The big parade of Odd Fellows here this morning was the feature of the day.

Some 1500 Odd Fellows, mostly Patriarchs Militant and of the Encampment degree, were in line besides a good representation from the subordinate lodges and Rebekahs.

Several hundred hand-drawn decorated automobiles added considerably to the general effect.

Compartment Commander Gen. H. O. Brower headed the military division.

MINOR BASEBALLS

The Christopher team of this city and the Los Angeles Pacific team of Santa Monica, will play a match game at Los Nietos Sunday afternoon, beginning at 2.30 o'clock.

Each team has found its weak points and strengthened these into a good contest is expected. The line-up will be as follows:

Christopher: Howard, pitcher; Harkness, catcher; J. Colwell, first base; Terry, second base; S. Colwell, third base; Goodman, shortstop; Wilson, left field; Laswell, right field; Gamble-Simons, center field; Coleman, Copeck, right field; Henzma, Copeck, right field.

BROOKLYN-BOSTON. (BY THE ASSOCIATED PRESS—P.M.) BROOKLYN, Oct. 5.—Boston lost two games here this afternoon to the locals.

Brooklyn batted Wilhelm for fifteen safe hits in the first contest. The second game was called in the seventh inning. Attendance 3000.

Score: Brooklyn, 11; hits 15; errors, 6. Boston, 5; hits 10; errors, 4.

First game: Brooklyn, 11; hits 15; errors, 6. Boston, 5; hits 10; errors, 4.

Second game: Brooklyn, 11; hits 15; errors, 6. Boston, 5; hits 10; errors, 4.

Batteries—McIntyre and Ritter; Young and Needham.

Umpire—O'Day.

HAMBERG'S SLOW BALL. HAD SEATTLE IN THE AIR. (BY THE ASSOCIATED PRESS—P.M.) SEATTLE, Oct. 5.—Hamberg of the leaders had the local team up in the air with his slow ball today.

Seattle could not hit at the right time, and Jones was landed on when it did the Oakland team the most good. Score: Seattle, 3; hits, 7; errors, 2.

Oakland, 3; hits, 3; errors, 1.

Batteries—Jones and Blankenship; Iberg and Byrnes.

Umpire—Cathard and Howetta.

ENTER TWO RAILROADS. Later, it is said, the Santa Fe made known its desire of securing a right of way for a track on the street.

Then the Southern Pacific agents entered the field and circulated a petition, asking that it be given the right of way, and agreeing to stand all the expenses of the proposed improvement.

The Santa Fe later acquired trackage rights on Center street to Los Angeles Soap Works.

CHANGE OF SENTIMENT. Then, it is said, a reversal of sentiment came to the Eighth Ward.

They began to realize, when Banning street frontage jumped up to a price of \$100 a foot, that the street was in line for warehouses and factories, and that their property would be more valuable for this purpose than for little cottages.

To begin with, the Eighth Ward Improvement Association was inclined to make a bitter fight against these encroachments of railroad trackage in the street.

Now the association is acquiescent. In fact, it is in the line of the idea of the location of large warehouses and factories.

It sees the handwriting on the wall, and the increase in property values which is sure to follow this transformation.

Rev. Dana Bartlett, president of the Eighth Ward Improvement Association, said last night: "We shall not appear to protest against the granting of this right of way, in fact, we look upon it with favor. The association does not favor either railway company. Which ever one gets the franchise, we believe it will be a benefit to the neighborhood as a factory district."

PROTEST SMALL OWNERS. "I understand the opening of several important industrial concerns is contingent upon the granting of the right to place trackage on Jackson street. What we shall do is to do our best to get the small property owner, and see that he is protected in getting fair prices for his property."

These small owners are being played whereby he is tied up before he realizes the value of his holdings.

"We shall enable these small owners to sell out to the manufacturing concerns and warehouse companies at prices which will enable them to buy other sections of the city."

"Now that the railroads have already possession of several of the streets, we realize it is useless to attempt to stand in the way of this industrial development. We expect here a great factory district, and we are shaping our plans accordingly. I do not believe any property owner will enter a protest against the granting of the right of way on Jackson street."

As several large industrial concerns are on the point of locating in the Jackson street district, it is hardly a bone of contention between the Santa Fe and Southern Pacific companies.

A large property owner on Jackson street said last night: "If the Santa Fe will meet the offer of the Southern Pacific in regard to putting up for the expense of street opening, we shall be inclined to favor that company. We feel grateful to the company that built the levee along the Los Angeles River, and thus protected our homes from the possibility of damage by high waters, and all things being equal, we shall be inclined to favor the Santa Fe."

The company that proved itself our friend in time of need."

FOREST RANGERS' DISCOVERY

One of the forest reserve rangers who has just come in from the mountains, brings a story to the effect that the slaughter of young deer in the mountains is not caused so much by the mountain lions as by the eagles, and between the two kinds of "varmints" it is a wonder that any of the young deer survive to be shot by boastful sportsmen.

This ranger states that he often believed the eagles killed the young deer, but was not sure of it, until recently, when he chanced to ride upon the carcass of a fawn that had just been killed by a big black eagle. One of the animal's legs had been broken; its sides were badly gashed by the claws of the bird and the entrails were torn out.

On might easily have believed it had been slain by a lion if the ranger had not come upon the scene just after the deer had been killed.

FOOTBALL MATCHES. TWO FOR THE INDIANS. Walter Hempel writes from Riverside that at an election held at the Sherman School a few days ago, Joseph Scholder was elected captain of the Indian football team for the season of 1905.

Arrangements have been completed for a match for the Sherman second team at Riverside, on November 4, their contestants to be the Occidental first team. One week later the Los Angeles High School eleven will play the Sherman second team at Riverside.

Negotiations are also under way for a game for the Indian first team at Riverside, October 14, with the Company T team of this city.

NEWARK SPREAD. ST. AMANT'S FIFTY THOUSAND. (BY THE ASSOCIATED PRESS—A.M.) LONDON, Oct. 5.—[By Atlantic Cable.] The race for the Jockey stakes of \$50,000 for 3-year-olds and yearlings, a mile and three-quarters, was run at Newmarket today.

St. Amant was second, and Mondamin was third. Six horses started. Mondamin led the bunch, when St. Amant drew to the front, and won a popular victory by three-quarters of a length.

M. Branc's crack horse Gouverneur was especially sent from France to average his defeat in the Derby of 1904 by Leopold de Rothschild's St. Amant, but the French horse was not even placed. The betting was 100 to 7 against St. Amant; 5 to 2 against Polymus, and 20 to 1 against Mondamin.

COMISKEY AROUSED. WILL MAKE OWN SCHEDULE. (BY THE ASSOCIATED PRESS—A.M.) CHICAGO, Oct. 5.—President Charles A. Comiskey of the Chicago American League Club is aroused over the action of the National Baseball Commission in announcing details and dates for the world's championship series between New York and Philadelphia before the outcome of the American League race is settled, and announced last night that, as a result, he would not now allow his team to play at the world's championship series, whether or not it was the American League flag.

"I have to make my own schedule, and I will decline to have anything to do with the proposed New York series, but instead, shall go ahead with the summer series with good success and says he will return there next year. He is a little tight for continuing riding, but has about all he can do."

Jack Arrives. Jockey Buchanan reached this city yesterday and expects to remain on the coast all winter. He has been riding with the post-season games with good success and says he will return there next year. He is a little tight for continuing riding, but has about all he can do."

NOT MURDERED BY THE YAQUIS.

MISSING AMERICANS MAY BE SAFE IN INDIAN TOWN.

Theory That They May Have Been Drowned on Way to Tiburón Island. Two Pairs of Human Hands Found Nailed to Tree are Those of Unknown Mexicans.

(SPECIAL CORRESPONDENCE OF THE TIMES.) TUCSON (Ariz.) Oct. 4.—Nothing of news has come from Sonora concerning the Grindell party, save denial of the story that Americans had been killed by the Yaquis. Two pairs of bodiless hands found nailed to a tree in the Indian country are those of Mexicans of unknown identity.

The most plausible guess concerning the fate of the party is that it started in a native canoe from the mainland for Tiburón Island at a time when the giant tides of the upper Californian gulf were running and that the canoe was overturned and the voyagers drowned.

There is little fear that the men have been murdered by Indians. Indeed, they may be found comfortably established in one of the many villages of the Grindell party, save denial of the story that Americans had been killed by the Yaquis.

Pen Points

Mr. Rockefeller says life is short. Yes, but he is not.

It is a mistake to say that the Philippines are without defenses. We have over a thousand Yankee schoolmasters there.

According to Gen. Gomez, the primaries in Cuba were an exact facsimile of the kind they hold in Mississippi.

Mr. McCall speaks of Nevada with contempt. But that's not a circumstance to the way Nevada speaks of Mr. McCall.

Studying the Philippines and colonizing Hawaii, eh? Come, little Jap man, you are most certainly monkeying with the buzz saw.

We gather from the remarks of Gov. Joe Folk that Mr. McCall may consider himself fortunate in being a non-resident of Missouri.

A New York actress has surprised her friends by getting married. If she doesn't soon get a divorce she will surprise them again.

There seems to be considerable money due the policy holders from McCall and McCurdy. It is obviously a case of the Macs and the oves.

There is a great deal of talk just now about what are called Pan-Germans. But, very likely, they are merely the old Stein Germans under another name.

A dispatch from Washington says that Japanese officers have made a study of the Philippines. In this way they have a great advantage over Senator Lodge.

So many "confidential" men having been found short in their accounts, perhaps it would be more appropriate in future to simply designate them as confidence men.

Much is being said in the insurance investigation about "interim allotments" and "final allotments." The members of the legislatures probably demanded both.

If the pockets of Andy Hamilton's old clothes could be produced they might account for some of the money, but rather as to where it remained than as to where it went.

Your neighbor should ask you to vote to send him to the State Legislature, next year. It is perhaps no more than right that you should make every effort not to betray your suspicions.

In deploring the publicity that has been given to the election of his son, Mr. Cudahy does not materially differ in his sentiments from those entertained at the present time by Pat Crowe.

If we understand Mr. McCall correctly, his relations with the various legislatures should be wholly of the effort to defeat bad bills by the use of the good bills he received from the policy holders.

It is now absolutely necessary that Andy Hamilton should divulge the names of those to whom he gave the money. In no other way can he eradicate the suspicion that he didn't give it to anybody.

It is quite apparent that our ingratitude to Mr. McCall for the service he rendered the gold standard is proving a painful surprise to him. But he should not mind. The Republics are proverbially ungrateful.

The President's best friends should impress him with the fact that in visiting New Orleans in the presence of the yellow fever, it is quite necessary that his liver as well as his nerve should be in good condition.

President Elliot of Harvard makes a strong appeal to his freshmen to cultivate cleanliness and avoid drunkenness. In other words, he desires them to take their baths on the outside and not on the inside.

The practice of paying out money without making a record of it in the books is not strictly original with the New York Life. Men are to be found in jails all over the country who employed the same system years ago.

A brother editor recently wrote that certain eminent financiers had "arrived" on the life insurance companies, but the intelligent compositor set it up "thieved." Sometimes the intelligent compositor knows what to say better than the editor does.

Now also comes the firm of McCurdy & Son, who have been submerging the Mutual Life. On account of the close relationship existing between them, the mercy of the court should be asked in their behalf to the extent that they be allowed to occupy the same cell.

Editors who ought to know better are constantly printing references to "Speaker" Joseph G. Cannon of Illinois, who was Speaker of the Fifty-eighth Congress, and who, in all probability, will be elected Speaker of the Fifty-ninth Congress when it meets in December next.

BUSINESS.

Trading at New York was dull and constrained, but the undertone held firm. The call rate for money touched the high level of the year, at 8 percent. Wheat at Chicago closed firm, with December at 84 1/2¢/bushel.

ROOSEVELT AND THE SENATE.

During the summer interim the President of the United States has been almost the busiest man in the world. His time has been taken up with a great many big questions, the considerations of which have been unexpectedly thrust upon him. Congress has not been in session. As a consequence the public has lost sight of the fact that the President and the lawmaking body of the nation have in their possibilities of great entertainment when they come in contact with each other next December.

In the parlance of the prize ring, the President and the Fifty-eighth Congress were in a fierce combat. The sound of the struggle that so deeply interested us last winter, and we find ourselves looking forward expectantly to what may happen during the winter now at hand.

The President's fight will be chiefly with the Senate. The House of Representatives (our American Commons), composed as it is of men chosen by direct popular will, is certain enough to be in sympathy with every movement of the Executive that has for its object the "greatest good to the greatest number." But the Senate is not in sympathy with a great many things that Mr. Roosevelt advocates. Everybody knows this to be the fact. And everybody who knows the President, and who also knows the Senate, feels justified in supposing that there will be "something doing" in Washington between the first Monday of the coming December and the 15th of March.

The people will be with Mr. Roosevelt. The United States Senate, as it is at present made up, does not represent the people. Altogether too many of the members are "interim allotments" and "final allotments." The members of the legislatures probably demanded both.

If the pockets of Andy Hamilton's old clothes could be produced they might account for some of the money, but rather as to where it remained than as to where it went.

Your neighbor should ask you to vote to send him to the State Legislature, next year. It is perhaps no more than right that you should make every effort not to betray your suspicions.

of naming candidates, which is practically dictating who shall fill the offices. Politics is "dirty" and we are too nice to touch it with our gloved hands. Politics will be "dirty" so long as we let unclean machine men do our politics. If we let these unclean men do it all they will name their own kind and they will do politics in the Legislature as they do it in the waste precincts. It will be "dirty" all the way through.

Put yourself in the place of these great corporations. They take trouble you, Mr. Voter, do not take. They learn just what the fellow is which you send to the Legislature. They know what purpose he has in mind when he seeks the office. They watch the bill he introduces. They see what his purpose is. It is bad, bad for the corporations, bad for the stockholders, bad for the general public. The public pays no attention to these things. What shall the corporations do? What they should do is not so easily figured out. What they do make up a "sack" between them and send a shrewd politician under high pay to the State capital to buy the soundbore of Blackmail is the object of these "clinch" bills and they almost always bring what they call for.

The mass of voters need not be the hand of railroad in politics and in legislation. If all the voters were well known there would be much less of this "pernicious activity" on the part of corporations. If the mass of voters would take proper interest in politics, see that capable and honest men were put in office and only the public good aimed at in all political moves. Other corporations besides the insurance companies really tremble when they scan the list of members of a Legislature about to assemble. They know the price of every soundbore resorted to make laws. They know, almost to a dollar, how much it will cost to buy off the whole gang of blackmailers, who get together and map out their campaign before the gavel falls to call their bodies to order.

Mr. Voter, that is your business and mine, and if "thieves fall out" and we come more generally to understand our shortcomings in politics in the past, our duty in politics for the future, it will be a large measure of good to the country which thus comes out of the insurance mess.

FOR INDUSTRIAL PEACE.

On the fifteenth day of November next the National Convention of the Citizens Industrial Association of America will meet in the city of St. Louis. It is expected that the meeting will be the greatest industrial gathering ever seen in this country. Delegates will be present from the entire nation, and the backbone of America's industries will be typified by the men who will make up the representation. The delegates will be hospitably entertained. St. Louis having 12,000 members of her own in the Association. Besides the good that it sure to result from the discussions, the convention itself will be an event to impress the country. The objects of the association are to secure and maintain the blessings of industrial freedom, to all who work. The right to work and the right of every man to sell his labor as he himself sees fit, without interference from others, is what the Citizens Industrial Association stands for. The principle is vital. Without it no kind of freedom can endure.

The sponsors for this great movement are the men who do things in America, who make the wheels go around, and who furnish the sinews of war. They are determined that the republic shall be freed from the menace of labor union tyranny. They mean to win, and they will.

THE GOVERNMENT PRINT-SHOP.

The President is determined that the investigation of the Government Printing Office shall proceed to a definite conclusion, and with as little delay as possible. An inquiry has already been made by a special commissioner appointed by the President for that purpose, and his report was of such a nature as to result in some important changes in the office management. The next investigation is to be made by a committee of Congress, of which Representative Charles B. Landis of Indiana is chairman. Members of this committee are said to hold the opinion that it is easily possible to reduce the expenses of the office by at least \$1,000,000 per year.

This estimate is probably none too high. The Government Printing Office has for many years been one of the most extravagant departments of the government. It has afforded endless opportunities for graft, and these opportunities, it is needless to say, have been taken advantage of to the utmost extent. It has been a source of graft for Congressmen, for Senators, and for other public officials. Most flagrant of all, perhaps, it has been a source of almost limitless graft for the Typographical Union, which has been allowed to run the office almost at its will, and to rob the government of millions of dollars. It is a source of almost limitless graft for the Typographical Union, which has been allowed to run the office almost at its will, and to rob the government of millions of dollars.

A mix-up of Many Races.

But his troubles are not with a practical homogeneous people as that of the Scandinavian Peninsula, but with the most varied assortment of races packed together within comparative restricted boundaries. Austria the Teutonic or German element forms a little less than one-third of the population, while in Hungary the Magyars, or Hungarians proper, constitute a little more than one-third. There are fewer than 10,000,000 Magyars in Austria as against over 20,000,000 Teutons in Hungary as against the 7,500,000 Magyars. Thus the German element has a preponderating influence in the country, and a strong pull in the other. The other

(by both parties), in the printing of political speeches under the false pretense that they were properly a part of the Congressional Record, and these political documents have been circulated through the mails by Congressional frank, under the same false pretense. Tons upon tons of material that was not needed have been bought for the Government Printing Office, and waste has been the rule rather than economy.

Truly there is need, and pressing need, for a searching investigation of this institution, in all its departments and in all the details of its management. It is to be doubted, however, whether the committee of Congress, appointed for that purpose, will make the investigation as searching and as impartial as justice demands that it shall be. The trouble is, as we briefly pointed out, that Congress itself is as deep in the mire as are the persons charged with the direct management of the institution. The investigation will no doubt be a miserable farce, as others have been, unless the President should refuse to accept the findings of an "investigation" that had not investigated. There is some likelihood that the President may do this if the whitewash should be laid on too thick by the committee.

And by the way, has not the President declared that the Government Printing Office shall be an open shop, where non-members of the union shall have equal opportunities with members of the union? Is the Government Printing Office an open shop? Are many non-unionists are now employed there? Is it not practically a closed shop, as it has always been, with the Typographical Union holding the key? The coming investigation should clear up this question, along with others more or less important.

GOTHAM'S LATEST JOKE.

The latest political joke in New York—which is sometimes given to moods of unaccountable hilarity—is the nomination of William Randolph Hearst for Mayor.

Now doesn't it jar you?

To be sure, Hearst was not nominated by anybody in particular. To be exact, he was nominated by "a man in the audience."

The gathering upon which the "man in the audience" got in his work was a sort of conglomeration of cranks and hobos. If it had not been an audience of that character it could never have nominated Hearst for any office higher than that of dog-catcher. On the Pacific Coast, where Hearst is known, he could not buy a nomination for dog-catcher—even in Calabasas.

The platform upon which Willie was nominated featured both the old parties, but it fails to "resound" upon the fact that Willie never broke in his efforts to buy the nomination of one of the old parties for President, a little more than a year ago. There was no occasion, however, to mention this fact, as everybody knows it.

We are informed that Mr. Hearst appeared before the polytechnic assembly which nominated him, and that he was "hailed" with enthusiastic applause by the motley crowd, and that he "denounced the Republican and Democratic leaders." No doubt of that. Mr. Hearst has been denouncing about everything except W. R. Hearst for these many years. And the things which he has denounced with the most ferocity have thrived the most abundantly.

The inchoate crowd from which "a man in the audience" nominated Hearst was denominated a "municipal ownership mass meeting." This is the core of the joke at which New York is laughing, and is realizing the truth of the song, "Laugh and the World Laughs With You." The idea of municipal ownership of public utilities in New York, with Hearst as Mayor, is like the opening of Pandora's box. The multitude of thieves and grafters which would swarm about the pie-counter would break all previous records, and the last state of New York would be far worse than the first—worse than it has been at any time under the baleful rule of Tammany.

MEN AND THINGS OVER THE SEAS.

The Hungarian Crisis.

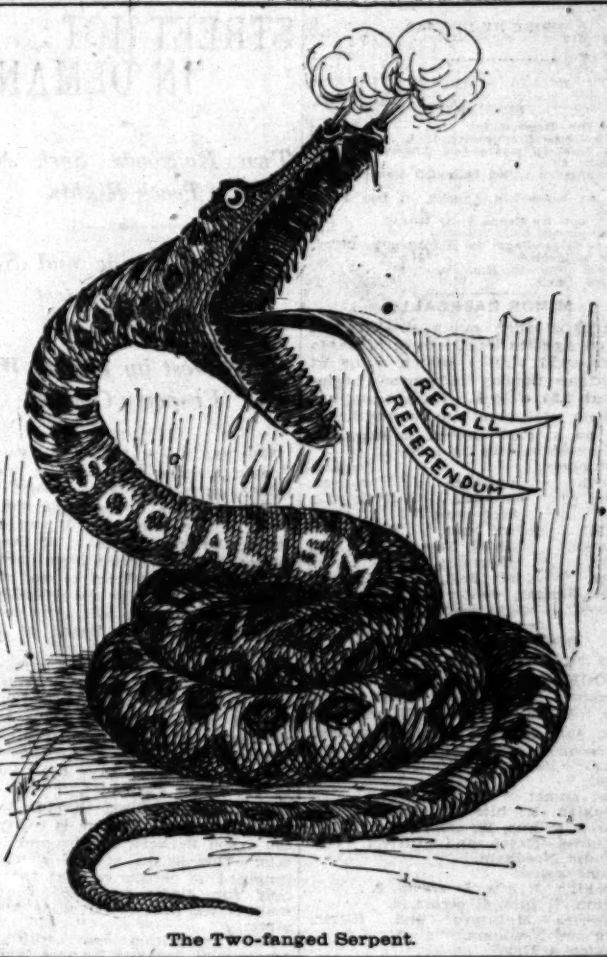

Among the seats of the mighty the most uncomfortable at the present moment is that occupied by Francis Joseph, King of Hungary and Emperor of Austria. His brother of dual monarchy experience, King Oscar, has been shorn of one-half of his royalties, but he has submitted to this curtailment with admirable dignity, and with a regard for humanity, inspired by the crown of fame more splendid than the crown of gold he has surrendered. King Oscar of Sweden sleeps sound of nights, for he is safe in the devoted loyalty of the subjects still left to him, and yet leave the Socialists desire to forsake the monarchial system in favor of a Republican order of things. In fact, they are some 800,000 titled or landed gentry in the country, and they are the last people in the world to wish for a republic that would at once place them in a minority, as regards the government of the country.

The Cry for Manhood Suffrage.

Hence the sharp position of antagonism between the coalition party representing the landed Magyar interests and the Socialists party representing the proletariat of all the races. The privileged few hundred thousand are ranged against the privileged millions. It is from a section of the latter that the call for a republic comes. And now we find Francis Joseph deliberately weighing the chances. Whether it is better to yield to the coalition party and yet leave the Socialists party wholly unappeased, or to play for the loyalty of the masses by granting manhood suffrage, and letting the Magyar faction, who are far from being universally popular, stay in the jaws of their discontent. It is between these two decisions that the balance is at the present moment trembling.

Poetry Not Yet Dead.

Two or three times every year somebody publishes a magazine article whose purpose is to prove that poetry is a thing of the past. This is an unpoetical and unpoetic article. Except for a few sporadic, left-over lyrics there will never be any more poetry. The poet is dead. The Muse is dead. There is just as much poetry and poetic feeling in the world today as there ever was. Perhaps there is more. Just at the present time we lack great interpreters of that feeling, but we shall not lack them for long.—(Cleveland Leader.)

The Two-headed Serpent.

PROMINENT PERSONS.

It is the intention of the newly-wedded Mrs. Marshall Field to reside in London six months in the year, where she will have both a town house and country residence.

Rev. Joseph Agar Beet, one of England's leading Methodists, has resigned his professorship in the Wesleyan College at Richmond, because he cannot believe in a pitkin hell.

Walter B. Pitkin, son of a Detroit printer, has been appointed to the chair of philosophy at Columbia University, New York. He had graduated with high honors at the University of Michigan.

Christ's Medical and Theological College (colored) of Baltimore has conferred the degree of philosophy upon Rev. Charles Edward Stowe, the son of the late Harriet Beecher Stowe, the author of "Uncle Tom's Cabin."

Rev. Dr. E. L. Eaton of Pittsburgh, Pa., one of the leading preachers of the Methodist church in this country, is expected to leave for Europe in October to devote his time to organization and nation-wide extension of a reform movement to curb the National Ministerial Prohibition Alliance.

Simon Guggenheim, worth \$15,000,000, and one of the wealthiest men in the State of Colorado, at one time conducted a little shop for the sale of emeralds and rubies in Philadelphia. He made his first money during the Leadville excitement by investing in a few shares of mining stocks with profits made in his little Philadelphia store.

King Edward placed the letters "R. L." after his signature to the congratulatory telegram sent President Roosevelt, and Emperor William reversed the order, signing "L. E." This is the usual style of each, and the difference indicates that in England "rex" is emperor, while in Germany the "imperator" comes first.

A. B. Daniels of Denver has arrived in Santa Barbara in his large twenty-four horse power automobile having driven down the coast from San Jose in two days.

Edgar S. Rosenblatt, formerly of San Francisco, but recently of London, has purchased a seat on the New York Stock Exchange for \$44,000 and will become an active partner in a big firm.

Rev. A. W. Hare of Santa Cruz has returned from a five weeks vacation in Southern California. This genial minister of the Congregational Church has the same pleasant story to tell of the Southland that all other visitors have.

Amman Dammas is a gentleman from Egypt who entered the courtroom of Judge Mogan in San Francisco wearing a red fez (skull cap) and against his protest was compelled to take it off in the presence of the court.

A sea croaker, who left Iowa in 1892 and went to Oregon with a party who drove ox teams, will start from the Pacific Coast early next spring with a similar conveyance, and it is possible will drive to Kalmar, Iowa. He will follow the old emigrant trail and has arranged to lecture at a number of places along the route.

Maj. Morrow, judge advocate of the department of California, recommends as remedy for the evil of desertion that the soldier's pay be increased from its present level of \$13 per month. In the year 1904 there were 844 desertions, or about 10 per cent of the entire establishment. For the five years ending with 1904 the total desertions were 27,385.

THE GREATER LOVE.

The bee that sips her flowers fair,
Flying on careless wings, where
now there,
With aureole above,
And soft south-wind to blow
And fro,
Might seem the soul of nature,
Her life a draught of nectar
less.
Not so! Her prime is full of
deed
That shames our own in
work for others' good.
Her days
She builds her golden home
queens stays
Her queen uprears her
home, her brood,
And seeks new haven on
seen.
Leaving her life work to posterity.
—Henry Hoyt Moore, in *San Francisco*.
